CHOOSING YOUR SUBJECTS

Students are advised to choose studies:

- that are prerequisites for further study
- that they enjoy
- in which they show an aptitude
- that reflect future career interests
- that contribute to a balanced program

YEAR 10

Semester 1							
Semester 2							

YEAR 11

Semester 1							
Semester 2							

YEAR

12

Semester 1							*optional sixth study
Semester 2							

ACCELERATION PROCESS

Students will ordinarily be able to take one VCE subject in Year 10 and one sequence of Units 3 and 4 in Year 11.

If this is requested, teachers and parents should be able to see evidence of readily demonstrable qualities that would equip the student with the degree of scholarship required for that VCE subject. Such qualities would include:

- Commitment
- Achievement, at least a B⁺ average across all subjects
- Organisation
- Maturity

If students meet the above requirements, we would highly recommend that they submit an application to undertake an accelerated subject.

Approval to undertake a VCE subject whilst in Year 10 requires students to:

- Discuss the implications of this choice with the Head of Student Career Development, and
- Submit the necessary application form and past reports by the due date.

The Senior School Leadership Team will make a decision on the merit of each application.
