
YEAR 10 SUBJECTS

Music Technology

This is a project-oriented course designed to familiarise students with the use of computers in music production, enhancing compositional and arranging skills. Logic Pro X will be used to develop students' theoretical understanding of music, with a focus on remixing. This recording studio software boasts strong recording and production capabilities and is an industry standard.

Skills include the ability to:

- Analyse the techniques used in digital composition
- Experiment and explore a range of sounds in the given sound palette
- Arrange, mix and remix music stimuli evidenced in folio tasks

PREREQUISITES

There are no prerequisites for this subject, however, it is highly recommended that students have undertaken Music Technology in Year 9.
