
YEAR 10 SUBJECTS

Outdoor Education

You will participate in a range of Outdoor Education practical activities to improve your practical skills and to develop an appreciation and awareness of the environment and the role that we (as humans) play in maintaining and preserving the environment for the future. Through outdoor activities you will have the opportunity to; develop an appreciation and understanding of outdoor environments; develop skills and knowledge related to practical experiences of outdoor environments; develop an understanding of the role of the outdoor environment and the need for its conservation; develop an understanding of strategies used to protect, conserve and manage the outdoor environment and acquire practical skills for safe outdoor participation. Practical activities may include surfing, snorkelling, mountain bike riding, kayaking, cross country skiing, bushwalking and rock climbing/abseiling.

Generic skills that are considered across all the subjects in the Physical Education faculty include:

- Display safe behaviour
- Demonstrate minimal impact
- Assess and plan for risk
- Ability to work in teams
- Work to acquire practical skills

Subject specific skills are:

- You will interact with the outdoor environment in a positive manner
- You will be able to develop behaviours for enhancing safe participation in outdoor activities
- You will be able to develop an understanding of risk and risk management for outdoor activities
- You will be working in teams
- You will gain knowledge about yourself

Please Note: Refer to the Subject Cost Schedule for details of costs relevant to this program.

“Outdoor Education in 2016 was very fun and enjoyable experience, loved the camps and excursions that we went on. It created unforgettable memories and taught me lots of things about the environment.”

Nicholas Hadathy
