
Victorian Certificate of Education

VOCATIONAL EDUCATION TRAINING

Vocational Education Training in the VCE combines general VCE studies with vocational training and work placement. It provides students with greater choice and scope to determine a pathway best suited to individual needs. Successful completion of a VET in the VCE program provides students with:

- Dual accreditation. That is, students will be given credit towards their VCE and simultaneously attain a nationally recognised vocational certificate.
- A contribution towards their final Australian Tertiary Admissions Rank (ATAR).
- The ability to articulate into further vocational and training courses.
- Workplace experience including structured workplace training.

Employers across Australia value the VET in the VCE program because it:

- Contributes to the development of entry skills for their industry.
- Provides students with a practical and focused introduction to workplace requirements.
- Enables employers to use the program for selection purposes.
- Enables industry to participate in local community networks.

VET CLUSTER

The local Brimbank VET cluster offers a range of VET courses. A separate course booklet can be obtained from the VCE Coordinator. VET subjects will incur additional costs for parents.

DISTANCE EDUCATION

Students may undertake selected subjects that the College does not offer via correspondence through the Distance Education Centre of Victoria (DECV). Details of subjects and the application process can be obtained from the VCE Coordinator. DECV subjects will incur additional costs for parents.
