
YEAR 10 SUBJECTS

Art – 2D

The two dimensional areas of drawing, collage, printmaking, painting and observational drawing will form the focus for this subject. You will use a range of materials in order to experiment with and explore concepts, creating artworks from each of the specific areas of study.

You will learn about Australian and international artists from the past and present, taking into account social, cultural and historical issues and traditions.

Subject specific skills are:

- You will be able to analyse artists' styles and artworks
- You will be able to experiment with and explore a range of media and techniques
- You will develop skills in a range of drawing, collage, printmaking, painting and observational drawing techniques

Please Note: A subject levy applies to this subject (see Subject Cost Schedule for details).

"Art - 2D is a great subject that incorporates different techniques to create a better piece of work. This subject is all about working on your painting and drawing skills. There are a range of projects, most of them being art related. It's a great subject for anyone who enjoys painting, drawing and generally being in the art rooms."

Annabelle Rodda
