

OVERNEWTON
ANGLICAN COMMUNITY COLLEGE

presents

Andrew Fuller

Unlocking your child's genius

As many of you know, Andrew is no stranger to Overnewton, having run numerous sessions for parents and staff alike. He is a clinical psychologist who works with many schools and communities in Australia and internationally, specialising in the wellbeing of young people and their families. He is a Fellow of the Department of Psychiatry and the Department of Learning and Educational Development at the University of Melbourne. Andrew has written many books including *Tricky Kids/Teens/People, Life: A Guide* and *From Surviving to Thriving*. He has also been a principal consultant to the national drug prevention strategy REDI, the ABC on children's television shows, is an Ambassador for Mind Matters and is a member of the National Coalition Against Bullying.

The genius in children often becomes hidden by a fear of making mistakes, anxieties, perfectionism or low motivation. Many bright children under-perform and do poorly at school. Others do well at school but never ignite once they leave.

This seminar is designed to help your child's most important teacher - YOU - develop the skills and ingredients of genius in your child.

When: Monday 9 November 2015

Time: 7:00pm

Where: Multi Purpose Hall, 39 Robertsons Rd, Taylors Lakes

To register, please email parented@overnewton.vic.edu.au stating the first name and surname of each attendee, your child's name and class, and home telephone number for Overnewton families by **Friday 6 November 2015**. Non Overnewton families are also welcome.

Attendance will contribute hours towards the Family Contribution Scheme
